

DADO, freedom to compose

The DADO collection is composed of a straight-back seat, a corner seat and poufs, modernly designed in a simple and functional style. Dado offers unlimited combination possibilities... just use your imagination! The seats can be put together to create linear compositions or any arrangement required by taste or space. Every composition made with Dado units has its own personality. The upholstered version is supported by a base frame of steel tubes, either with a thermosetting powder coating or chrome-plated. The back spacers are made of coated or chrome-plated square-section steel tubes. The seat and back structure is made of birch multiply, padded with high-density polyurethane rubber and covered with fabric.

DADO also comes in an outdoor version that can be used on a terrace or outside bars, restaurants and hotels. With its special design features, it can be used both indoors and out. DADO is versatile, easy to use and weather resistant. The frame is aluminium, coated with hand-woven plastic, and the cushion is made with water-repellent fabric specifically for outdoor use.

ECHO, contemporary elegance

ECHO is a seating collection in modern taste, designed for lightness and simplicity, pleasantly versatile and comfortable. ECHO is fitting and discreet, always appropriate in any situation, and suitable for both indoor and outdoor use.

Elegant in white, sophisticated in ivory, trendy in green, ECHO takes a more formal attitude when wearing dark (anthracite grey). Resistant to shocks, detergents and UV radiation, entirely non-toxic, ECHO is 100% recyclable. Steel frame.

PP+PET (variable-density multilayer engineering plastic) body. Colours available: white, ivory, green, anthracite grey. Use: indoor and outdoor.

PUPA, mix-and-match style

Art. 005 - PUPA polycarbonate version

Art. 005 - PUPA wood and regenerated leather version

Art. 322 - PUPA barstool

Art. 005 - PUPA wood version

PUPA is a friendly chair that doesn't stand on ceremony. PUPA can fill a room without making it look crowded and goes together well with other forms of seating, even in classic style, making it ideal for mix-and-match furniture. Its top features are its compact size and versatility, since it can be supplied with various finishes, classic (e.g., wood) or modern (e.g., transparent polycarbonate). Stackable and comfortable thanks to the anatomic design of the one-piece body, PUPA is available with the seat in wood, wood and regenerated leather or polycarbonate (also for outdoor use). Finishes: light or dark wood with white, black, transparent, transparent lilac or transparent green polycarbonate. Structure: steel or AISI 304 18/10 stainless steel tubes.
